Profile

Enthusiastic software developer and designer with hands-on experience building academic and personal projects that solve real-world problems. Skilled in creating user-focused applications using modern technologies, with a strong interest in AI and scalable systems. Passionate about learning through building and continuously improving both technical and design skills.

Education

- B.Tech in Computer Science Engineering,**
N S Raju institute of engineering and technology
CGPA - 7.8
- 06/2023 – 05/2027
- Board of Intermediate Education, Sri Chaitanya Junior College**
Percentage - 85%
- 09/2021 – 03/2023
- Secondary Education, Sri Rama Krishna School**
CGPA - 9.8

Skills

- Languages**
C | Java | python(basics)
- Web Technologies**
HTML&CSS | React.js
- AI tech**
prompt engineering
- CS Fundamentals**
Object-Oriented Programming
- UI/UX design**
Figma (Wireframing, Prototyping, Design Systems)

Professional Experience

- WEB DEVELOPMENT & WEB DESIGNER INTERN, CG Infotech**
- 05/2026 – Present
- Designed and developed responsive websites for clients using modern web technologies.
 - Built user-friendly UI/UX layouts and optimized website performance.
 - Collaborated with teams to deliver functional and visually appealing web solutions.
 - Maintained and updated existing websites based on client requirements.

Interests

Hackathons & Tech Events

I actively participate in hackathons to explore real-world problem solving, collaborate with diverse teams, and prototype ideas under tight deadlines. These events help me learn new technologies quickly and improve my creativity in building impactful solutions.

Artificial Intelligence

Fascinated by how AI is transforming industries through automation, predictive systems, and smart technologies. Interested in exploring real-world AI applications.

Projects

Divido - Smart Expense Sharing Web App

- React, TypeScript, Vite, Supabase (backend integration)
- A full-stack expense management application that simplifies group bill splitting, tracks shared expenses, and automates settlements with real-time transparency.

Certificates

2-day hands-on workshop on Artificial Intelligence and Machine Learning

Organized by NS Raju Institute of Engineering & Technology in collaboration with industry experts (Jan 27–28, 2025).

IBM SkillsBuild Certifications

AI Fundamentals: Foundations for Understanding AI – Acquired knowledge of AI concepts, machine learning fundamentals, ethical AI practices, and real-world applications.
Lifelong Professional Skills – Developed communication, teamwork, problem-solving, leadership, and career readiness skills for professional growth.
